

Advanced Payment and Care Model (APCM) Learning Session

Sunriver Resort: 17600 Center Drive Sunriver, OR 97707

Thursday, August 17, 2017 from 8am – 4:30pm

We will spend the day focused on aspiration and implementation to carry forward our pursuit of health equity through APCM. We will continue to push our thinking past the traditional medical models of community health and explore innovative, collaborative and upstream approaches to primary health care and wellness.

Objectives

- Provide health centers with a chance to connect, share ideas, troubleshoot barriers and discuss best practices.
- Learn about the vision, strategy and programs of [Upstream Health Innovation](#), a Minnesota-based organization using human-centered design to empower patients, build community capacity, promote equity and improve health.
- Support ongoing implementation and advancement of the APCM Accountability Plan and transformation strategies, with a focus on population segmentation and social determinants of health (SDoH) interviewing and intervention.

Agenda

Wednesday, August 16, 2017: Reception | Great Hall Courtyard

Time	Session	Who	Objective
5 -7PM	Casual Networking Reception	APCM Learning Session Attendees	Network, eat and relax

Thursday, August 17, 2017: Learning Session | Great Hall Ballroom

Time	Session	Who	Objectives
8:00	Registration and Breakfast		
8:30	Welcome	Charles Ashou & Katie Coleman	<ul style="list-style-type: none"> - Learn who's in the room. - Review purpose and agenda for the day.
8:45	Upstream Interventions: Keeping Our Eyes on the Prize and Our Feet on the Ground	Laurie Francis & Laura Gottlieb	<ul style="list-style-type: none"> - Review the continuum of upstream drivers of health. - Connect dots between upstream drivers and segmentation and why we think this strategy leads to high value care and improved health equity. - Provide an overview of best practices in clinic-based upstream interventions. - Describe some of the challenges in conducting and evaluating social determinants interventions. - Share ideas about next frontiers in social determinants research and community health.
9:45	Connecting the Dots: Strategy, Accountability and Transformation	Charles Ashou	<ul style="list-style-type: none"> - Provide strategic framework for the day by reviewing the four quadrants of the APCM. Accountability Plan. - Review how they interact to support performance and transformational change.

10:00	Population Segmentation: Learning Community Status Update	Carly Hood	Summarize the status of SDOH care transformation across the learning community.
10:15	Break		
10:30	Population Segmentation: Examples from the field	<u>Facilitator:</u> Katie Coleman <u>Presenters:</u> 1. Ariel Singer, OPCA 2. Rick Rankin, Rogue Community 3. Michelle Farmer, Neighborhood Health	Share operational strategies or success on specific aspects of segmentation. 1. Creating a patient-centered approach to conducting SDOH interview patients 2. Sustaining momentum for practice change 3. Conducting the data analysis for segmentation
11:30	Learning Together: Peer discussion time	Katie Coleman	Create opportunity for clinics to connect in small groups to discuss specific aspects of segmentation. Break out into groups and share you experience or questions on the following topics: 1. Creating a patient-centered approach to conducting SDOH interview patients 2. Sustaining momentum for practice change 3. Conducting the data analysis for segmentation
12:15	Lunch on the lawn - optional CHW lunch table discussion led by Claire Tranchese - optional Phase 6 lunch table informational led by Laura Sisulak		
1:15	Population Segmentation: Teamwork time	Katie Coleman	- Consider your SDOH work plan in light of today's discussion - Reflect on how far upstream your thinking is - Identify three segmentation action steps that align with your vision for transformation at your health center
1:45	Upstream Health Innovations: Leveraging Service Design to Achieve Health Equity	Emily Anderson & Susan Jepson	- Share experience using human centered design to create innovative approaches to addressing health upstream - Describe the importance of staff, community and patient partnership in creating health system innovation - Share examples of specific upstream solutions and programs developed in partnership with stakeholders
3:15	Break		
3:30	Laurie's Farewell (for now) to the APCM Learning Community	Laurie Francis	Share parting words from our APCM Care Model visionary
3:45	Looking Back and Looking Forward	Ariel Singer	Enjoy stories and reflection on our journey together
4:30	End
