

**Health Center:
Segmentation Strategy Work Plan: November 2016-July 2017**

Part I: Profiling your Segmentation Strategy

1. Describe and/or illustrate your segmented population:
2. How did you administer the Social Determinants of Health (SDH) screening tool when partnering with members of the segmented population?
3. What trends did you identify (common issues) as you interviewed your segmented population?
4. What was the experience like as the staff person administrating the tool?
5. What barriers did you encounter and how did you address them?

Part II: Reflecting on the Data

1. What else do you want to know about this population?

Where will you get this data?

How often will you pull and use it?
2. How have you or will you use this data in a meaningful way?

Part III: Based on what you learned about the goals for 2017, what are your 3 action steps for when you get back at the clinic?

#	What needs to happen?	Who is responsible?	What will we measure?
(Example)	<i>(Setup initial meeting with food pantry staff to test out a closed loop referral process for patients who answered positively for food insecurity)</i>	<i>(Mandy, the CHW and Rachael, the Operations Manager)</i>	<i>(meeting took place; action plan initiated)</i>
