<i>Areas of work</i> ↓	PRACTICE/Innovation	DATA/Improvement	POLICY/Influence
Reducing Health Disparities/SDoH	1. Strengthen CHC capacity to address the SDoH with their patients, elevating best practices.	2. Working with partners to enhance capacity, Clinics will segment sub populations by medical, social and economic complexity.	3. Advocate for increased CCO investments in SDoH, recognizing the integral role of CHCs in measuring and addressing social needs with partners.
Strengthening CHC Network	4. Create shared priorities for practice improvement for the network and target interventions to those priorities.	5. Sharing data transparently within the network, clinics will collectively align their cost, utilization and quality metrics.	6. Maximize health center engagement in advocacy effort to avert federal and state funding threats.
Clinic Staff and Operations	7. Support current and future health center leadership, provider and staff vitality.	8. Facilitate the sharing of individual clinic data and support spread of best practices across clinics on a balanced set of metrics, including patient and staff experience.	9. Partner with the Bureau of Primary Health Care to align measurement with practice transformation, across all payers (UDS/HRSA, MACRA).
Payment/Value	10. Continue to evolve APCM, documenting successes and challenges.	11. Secure consistent and timely cost, quality and utilization data from partners and payers, and build health center capacity to optimize its use.	12. OPCA continues to lead value based care design and payment policy on a national and state level.
Access	13. Help health centers to maximize capacity, meet care and service demands, and integrate services.	14. Use a human-centered approach to redesign a meaningful patient engagement tool to reflect innovative care and connections (STEPS).	15. Execute the access goals, including coverage and care as articulated in OPCA’s policy agenda.
