Advanced Payment and Care Model (APCM) Learning Session
World Forestry Center's Miller Hall | Thursday, January 25, 2018

Objectives
- Provide health centers with a chance to connect, share ideas, troubleshoot barriers and discuss best practices.
- Continue to explore opportunities for human-centered design when learning and thinking through patient-driven care team responses.
- Learn from national equity expert, Marshall Chin, and your health center peers about care model, data strategies and examples for achieving health equity at your health center.
- Support ongoing implementation and advancement of the APCM Accountability Plan and transformation strategies, with a focus on care team and community responses that address health equity on the individual patient and target population levels.

Agenda

Time	Session & Objectives	Who
8:00	Registration and Breakfast	
8:30	Learning Session Welcome - Review the agenda for the day and welcome new people to the learning community. - Anchor the day with APCM's Accountability Requirements. - Share national landscape updates and the importance of defining and creating a patient-driven approach to value.	Charles Ashou & Laura Sisulak, OPCA
9:30	Health Equity in Action: Aligning Payment and Care Transformation - Understand leadership, payment and infrastructure support needed to address health equity. - Learn about equity performance measures and their intended use for health center quality improvement and policy. - Share details about health equity initiatives that weave in community partners.	Marshall Chin, University of Chicago
10:15	Break	
10:30	Health Equity Analytics - Learn about a Board-level initiative to "look under the hood" of key measures of access, quality, patient experience, and disease prevalence to explore whether sub-populations are experiencing disparities. - Learn the methodology, data sources, analytic tools and next steps. - Offer suggested paths for clinics at different levels of analytic maturity.	Ken House & Marshall Greene, Mosaic Medical
11:00	Introduction to Mini Learning Sessions #1	Stephanie Castano, OPCA
11:15	Health Equity Analytics - Share in-depth detail of how Mosaic completed their analysis. - Learn the data sources, with special attention to data considerations for clinics using OCHIN Epic.	Ken House & Marshall Greene, Mosaic Medical
	Building Patient-Centered Social Determinants of Health Workflows to Improve Population Health Management - Discover patient-centered priorities and principles for SDH screening based on qualitative feedback gathered from patients around Oregon. - Learn about and discuss alternative clinical workflows for patient-centered, SDH screening practices. - Review how SDH workflow and data collection processes support APCM accountability requirements.	Carly Hood-Ronick, & Jessica Anderson, OPCA
	Care STEPs: From Documentation to Care Redesign - Brainstorm ways to make meaningful use of the Care STEPs data reported to the state. - Explore Quality Assurance processes and techniques to ensure Care STEPs documentation accuracy. - Imagine new Care STEPs to adopt for specific target populations and/or expanded care team access.	Charles Ashou & Claire Tranchese, OPCA
	Sharing a Vision for APCM: Human-Centered Design Lab - Describe the core concepts and methods of human-centered design. - Tell the story of OPCA's APCM-focused human-centered design learning journey in 2017	Ariel Singer & Troy Carpenter, OPCA

	- Test a prototype that OPCA developed for sharing a vision for APCM and gather user experience feedback.		
12:15	Lunch		
1:15	**Effective Community Partnering to Address Domestic and Sexual Violence Screening, Referral and Prevention** - Understand why Screening for Domestic Violence (DV) and Sexual Violence (SV) is important in a health care setting. - Know 2-3 ways DV affects health outcomes. - Understand important things to consider living, timing, location, setting, and disclosure when screening for DV. - What the local DV services are and how to connect to them. - The importance of partnerships with local DV Advocacy agencies.		Keri Moran-Kuhn, Oregon Coalition Against Domestic and Sexual Violence & Julie McFarlane, Oregon Health Authority
1:45	**Introduction to Mini Learning Sessions #2**		Stephanie Castano, OPCA
2:00	**Effective Community Partnering to Address Domestic and Sexual Violence Screening, Referral and Prevention** - Learn the first steps to address screening for DV and SV in a health care setting and how to get started.		Keri Moran-Kuhn, Oregon Coalition Against Domestic and Sexual Violence & Julie McFarlane, Oregon Health Authority
	Building Patient-Centered Social Determinants of Health Workflows to Improve Population Health Management - Discover patient-centered priorities and principles for SDH screening based on qualitative feedback gathered from patients around Oregon. - Learn about and discuss alternative clinical workflows for patient-centered, SDH screening practices. - Review how SDH workflow and data collection processes support APCM accountability requirements.		Carly Hood-Ronick, & Jessica Anderson, OPCA
	Care STEPs: From Documentation to Care Redesign - Brainstorm ways to make meaningful use of the Care STEPs data you report to the state - Explore Quality Assurance processes and techniques to ensure Care STEPs documentation accuracy. - Imagine new Care STEPs to adapt for specific target populations and/or expanded care team access.		Charles Ashou & Claire Tranchese, OPCA
	Sharing a Vision for APCM: Human-Centered Design Lab - Describe the core concepts and methods of human-centered design. - Tell the story of OPCA's APCM-focused human-centered design learning journey in 2017. - Test a prototype that OPCA developed for sharing a vision for APCM and gather user experience feedback.		Ariel Singer & Troy Carpenter, OPCA
3:00	Break		
3:15	**Weaving People into Service Delivery: Our journey in walking beside others to implement PRAPARE** - Tell the story of the growth in Health Navigation. Focusing on Benton County's role in community and the benefit to health services. - Share the use of Human Centered Design principles to impact Benton County's organizational culture, focusing on change through co-design tweaks versus problem-solving and bulldozing. - Demonstrate Benton County's implementation supports, and challenges, as they work towards full rollout of PRAPARE as a way to measure patient and community needs, share data with others, and partner for adequate and matched services for patients.		Chris Campbell, Christine Mosbaugh, & Kelly Volkmann, CHCs of Benton & Linn Counties
4:15	**Looking forward** - Share highlights of the day and where the Learning Community is headed in 2018/2019.		Charles Ashou, OPCA
4:30	**APCM Networking Reception**
