

Drive-up POC testing Procedure

- Provider/MA/RN will determine that POC is needed either by tickler for DM Follow UP apt or messaging (TE etc).
- MA will call patient to make TWO appointments
 - 1st Apt for Drive-up POC - instruct pt to park by play structure and call MA ext upon arrival
 - 2nd Apt 1-2 days later for Telemed visit with PCP – confirm phone number

Drive Up POC Preparation

- Apt scheduled so that MA will be aware and is expecting patient
- Supplies gathered for the POC test and orders (by certified MA, RN or PCP) entered in chart
- Pt arrives and calls the clinic, MA ext 802 to notify of arrival.
- Patient will park by the back entrance/play structure

Two MAs will be ready for the testing procedure as follows:

1. 1st MA will go out to car wearing **mask/face shield** (procedure mask) **gloves** and gown optional
If choosing to wear a gown, please use the washable gowns from Dental.
 - a. 2nd MA is waiting by the door with **gloves** on, should help be needed and to facilitate testing.
2. MA to confirm patient's name and DOB
3. MA to confirm time of follow up telemed visit to review results with PCP
4. MA to inform patient which POC to be done (A1c, CBG, Lipids, HIV?)
5. Patient to hold their arm out the car window and MA to proceed with POC test
6. Patient may then leave clinic.
7. 1st MA to return to clinic to run test.
8. 1st MA will hand off testing sample to 2nd MA to run the tests while the 1st MA removes PPE and washes hands.
9. Result of POC entered in Patient's chart and routed to PCP
