

## ACLC Webinar Series Kick-off

Date: Wednesday, November 13, 2024

Time: 12:00 – 1:00 pm

Description: Join us to kick off the 2024-25 Advanced Care Learning Community webinar series! This year's theme, "Beyond Integration: Supporting Workforce Resilience in Team-Based Care Models," aims to tackle the social and systemic pressures FQHC care providers face in managing patients' complex needs within an integrated care system.

For our opening webinar, Dr. Amy King, licensed psychologist, will provide practical strategies for overcoming the challenges FQHC professionals encounter as they expand their scope to address patients' social needs.

### Kick-Off Webinar Objectives:

- Acknowledge Pressures: Understand the social and systemic challenges in addressing patients' social needs.
- Strategize Patient Visits: Learn strategies for managing patient needs effectively within a single visit.
- Leverage Team-Based Care: Explore methods for utilizing interdisciplinary teams to provide comprehensive care.
- Collect Feedback: Share key topics and challenges faced by FQHC professionals to guide future webinar content and discussions.

### About the Advance Care Learning Community:

The ACLC was established to support clinics transitioning to OPCA's Alternative Payment and Advanced Care Model (APCM). This model replaces the fee-for-service approach with a capitated payment system, enabling health centers to create personalized health plans and focus on holistic patient care, including addressing economic, environmental, and social factors.

Now available to all Oregon FQHC members, the ACLC explores key topics in health center care transformation with a focus on evolving primary care teams.
